

# THE HUNTINGTON MAP AND GUIDE

Founded in 1919, The Huntington shares its world-renowned collections to support scholarship, foster learning, inspire creativity, and offer extraordinary resources for diverse audiences.

Henry Edwards Huntington was born in 1850 in Oneonta, New York. In 1872, he went to work for his uncle, Collis P. Huntington, one of the owners of the Central Pacific Railroad. This work led him west to California. In 1903, he purchased the San Marino Ranch and began transforming it into what is now The Huntington.

In 1913, Henry married Arabella Duval Huntington, the widow of Collis. She was Henry's age and shared his interest in collecting. As one of the most important art collectors of her generation, she was highly influential in the development of The Huntington's European art collection.

Henry E. Huntington died in 1927; Arabella predeceased him by three years. Both are buried in the mausoleum on the property.

HUNTINGTON ART GALLERY

## WE INVITE YOU TO BE INSPIRED

The Huntington is where history, literature, art, and the natural world coalesce to provide transformative experiences. We invite all who are curious to make new connections, discover fresh perspectives, and reimagine our collective futures.

THE LIBRARY is one of the world's great independent research libraries with some 12 million items, including rare books, manuscripts, prints, maps, and photographs from the 11th century to the present. Highlights from the collections are on view in the Library Exhibition Hall until spring 2025. Starting in summer 2025, select collection items will be on view in the Huntington Art Gallery.

LIBRARY EXHIBITION HALL

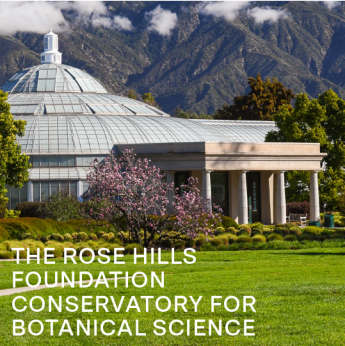

THE BOTANICAL GARDENS are a living collection of more than 83,000 plants, which cover 130 acres of the 207-acre grounds. Explore more than a dozen themed gardens, including the Chinese Garden, the Desert Garden, the Japanese Garden, and the Rose Garden.
