

# THE HUNTINGTON

Library, Art Collections, and Botanical Gardens

## Visiting The Huntington – A guide for homeschool groups

1. Homeschool visits are offered on *non-holiday Mondays* during public hours (10 a.m. -5 p.m.)
2. Reservations must be made 3 weeks in advance.
3. Groups must have a minimum of 10 (K-12) students, maximum of 50 students. All students will be granted free admission.
4. Groups will receive free admission for a *maximum of one chaperone for every three students*. If more adults want to enter with the group, admission tickets can be purchased for any adults over the 3:1 student-to-chaperone ratio. Admission is always free for children under 4 years of age.

## Preparing for Your Visit

- Picnicking is only allowed in the outdoor school lunch area, near the bus drop-off zone, and is not permitted inside the grounds. We do not have a covered sack lunch area in case of rain. Please plan accordingly.
- One chaperone is required for every ten students at all times. All chaperones must be at least 21 years of age.
- All backpacks must be placed in a locker. Lockers are free and located at Admission.

## Huntington Helpfulness

As visitors to The Huntington (both students and chaperones), we ask for your help keeping our exhibits and grounds safe and clean.

1. **Stay Together** – Stick with your teacher, chaperone, or parent. Staying with an adult helps you spend more time touring and, also, helps The Huntington staff keep you safe.
2. **Hands (and Body) to Yourself** – Keep your hands (and feet and body) to yourself. Students can help us protect The Huntington and our exhibits by not touching the artwork, the furniture, the sculptures, display cases, and the garden installations.
3. **Indoor Voices** – Use indoor voices both inside and outside while on the grounds. Keeping voices quiet also helps other visitors enjoy our public spaces.
4. **Feet on the Path** – Help us keep our gardens healthy and always stay on the paths.
5. **Walk Inside and Outside** – Walking, instead of running, helps keep our gardens and exhibits protected and keeps you safe in our buildings and gardens.
6. **Gadgets Off** – Turn off cell phones in the galleries and library – this makes for less distraction and noise during visits. During tours, no photography is allowed. No flash photography in any of the galleries or library. Photography the gardens is encouraged during public hours.
