Welcome!
The Huntington is a private nonprofit collections-based research and educational institution founded in 1919 by Henry E. and Arabella Huntington. Huntington was an exceptional businessman who built a financial empire in Southern California. He was also a man of vision—with a special interest in rare books, art, and gardens. During his lifetime, he amassed the core of one of the finest research libraries in the world, assembled a spectacular art collection, and established an array of botanical gardens with plants from a geographic range spanning the globe.
The Huntington's collections have continued to grow since Henry Huntington's time, serving up a feast for the senses and intellect, linked by a devotion to research, education, and beauty. Enjoy your visit!

Henry Edwards Huntington was born in 1850 in Oneonta, N.Y. In 1872, he went to work for his uncle, Collis P. Huntington, one of the owners of the Central Pacific Railroad. This work led him west to California. In 1903, he purchased the San Marino Ranch and began transforming it into what is now The Huntington Library, Art Museum, and Botanical Gardens.

In 1913, Huntington married Arabella Duval Huntington, the widow of his uncle Collis. She was Henry's age and shared his interests in collecting. As one of the most important art collectors of her generation, she was highly influential in the development of the Huntington's European art collection.

Henry E. Huntington died in 1927; Arabella predeceased him by three years. Both are buried in the mausoleum on the property.
