

AGE AND GRADE CHART

Your birthday dictates when you begin school.

You must be 5 years old on or before September 31 (give or take a few days depending on state) to start school.

REMEMBER: Depending on the group, your students may be less developed towards the beginning of the year and possibly more developed toward the end of the year. For example, in October your first graders may be more similar to Kindergarteners and in May, they may be more like young second graders.
